

Continuation of substance of interview: Mr. Sokohl called to discuss citing the parent application in the current issuing application. The Examiner agreed that the parent had been considered but does not appear to be specifically annotated as such or cited. Since the parent application was cited in the first paragraph of the specification and the Examiners 4/2/2008 search notes Ref# L5 shows it was reviewed by the Examiner, please find an attached PTO-892 citing said parent patent.
